

“ YOU MIGHT AS WELL RENT THE BEST ”

Berringer

Features Deep Vacuum Power, High CFM and Quiet Operation for both Wet and Dry Materials

The Berringer fills an important need for operators who routinely load liquids, sludges and semi-solids, but who also need the ability to efficiently load dry materials.

The Berringer liquid-ring vacuum pump provides deep vacuum power developing a full 27" of vacuum and is capable of moving 1,000 cubic feet of air per minute for high velocity air induction, as well as pressurized tank discharge at the push of a button.

ALL VTR BERRINGERS HAVE:

- Cyclone filtration for pumping dry materials
- Fully opening rear door with hydraulic opener
- Hydraulic tank lift
- Full function push button control
- Full length body trays for hose storage
- Automatic primary shutoff with stainless steel float ball
- Internal stainless steel liquid level indicator
- 6" discharge for direct pressurized or gravity unloading

VTR OFFERS A FULL LINE OF BERRINGERS WITH THESE FEATURES:

- 3,800 gallon tank (3500/300)
- LR1K liquid-ring vacuum pump
- ASME certification
- DOT 412
- 20" Manway with ladder
- Rear hose hooks
- Hydraulic vibrator
- Rear work lights
- 400 HP diesel engine
- High pressure water jetting system, 35GPM @ 2,000PSI
- Cross-over piping system
- Hydraulic hose reel with 500 feet of 3/4" jetting hose
